

NOTICE REGARDING WELLNESS PROGRAM

The City of Bryan's Healthy Lifestyle Program is a voluntary wellness program available to all employees and retirees on the City's health insurance plan. The program is administered according to federal rules permitting employer-sponsored wellness programs that seek to improve employee health or prevent disease, including the American with Disabilities Act of 1990, the Genetic Information Nondiscrimination Act of 2008, and the Health Insurance Portability and Accountability Act, as applicable, among others. If you choose to participate in the wellness program you will be asked to complete a voluntary health risk assessment or "HRA" that asks a series of questions about your health-related activities and behaviors and whether you have or had certain medical conditions (e.g., cancer, diabetes or heart disease). You will also be asked to complete a biometric screening which will include a blood test. The blood test will include a full lipid panel and blood glucose. In addition, your height, weight and blood pressure will be recorded.

You are not required to complete the HRA or to participate in the blood test or other medical examinations. However, employees and retirees who choose to participate in the wellness program will receive reduced premium rates.

If you are unable to participate in any of the health-related activities to earn an incentive, you may be entitled to a reasonable accommodation or an alternative standard. You may request a reasonable accommodation or an alternative standard by contacting the Wellness Coordinator, Lesley Ward, at lward@bryantx.gov or by calling 979-209-5050.

The information from your HRA and the results from your biometric screening will be used to provide you with information to help you understand your current health and potential risks, and may also be used to offer you services through the wellness program, such as onsite educational opportunities, disease management programs and other wellness related activities. You also are encouraged to share your results or concerns with your own doctor.
